SUMMARY

Enthusiastic Software Engineer with hands-on experience in JavaScript, React, and full-stack web development. Strong foundation in data structures and problem-solving, with industry experience delivering high-quality geospatial data solutions for Apple Maps.

EDUCATION

2025 – 2026	**Masai School** — SDE Program (Full-stack)
2018 – 2021	**BCA**, *Bengal College of Engineering and Technology*

SKILLS

- **Languages:** JavaScript (ES6+)
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, Firebase
- **Tools & Platforms:** Git, GitHub, VS Code, Razorpay API
- **Concepts:** Data Structures & Algorithms, REST APIs, System Design, Problem Solving
- **Soft Skills:** Communication, Teamwork, Time Management, Adaptability, Analytical Thinking

PROJECTS

- **FitnessBuddy — Personal Fitness Tracking Platform**
  - Built a responsive fitness web application enabling users to log workouts, set daily fitness goals, and track progress through an interactive dashboard.
  - Designed goal management with a carousel-based UI to display auto-refreshing daily targets and progress indicators.
  - Implemented user authentication and protected routes using Firebase Authentication to ensure data privacy.
  - Integrated Firestore for real-time data storage and retrieval of workouts, goals, and user profiles.

  Tech Stack: React, Vite, Tailwind CSS, Redux Toolkit, Firebase, Firestore

- **YatriSeva — Travel & Pilgrimage Booking Platform**
  - Developed a modern travel booking platform for religious destinations supporting hotel, train, and flight bookings.
  - Implemented destination search, booking flow, and user authentication with real-time booking confirmations.
  - Integrated Razorpay payment gateway (simulator) to demonstrate secure payment flow handling.
  - Focused on responsive UI design, input validation, and smooth user experience across devices.

  Tech Stack: React, Tailwind CSS, Firebase, Razorpay (Payment Simulator)

WORK EXPERIENCE

Senior Process Executive   Apr 2022 – Present
Cognizant — Hyderabad

- Executing high-volume production edits and metadata updates for **Apple Maps POIs**, consistently maintaining **98%+ quality accuracy** across naming, addressing, and business data.
- Reviewing and validating **500+ POI records per week** using internal tools such as **MDP, Rhapsody, and Apollo Legacy** to ensure data correctness and compliance with Apple guidelines.
- Handling complex POI investigations and escalations related to Business Connect and address conflicts, reducing client rework and improving turnaround time.
- Supporting quality audits, peer reviews, and onboarding of new team members by sharing best practices and workflow standards to maintain team-level performance benchmarks.
